

**DON'T
REPLACE IT—
REFURBISH IT**

**Get years of life
from your
fluid flow
components.**

**THE THORTEX REFURBISHMENT
AND RESTORATION COATING SYSTEM**

The RPT Solution for Corrosion, Abrasion and Erosion

The Repair and Protection Group proudly offers the Thortex Refurbishment and Restoration Coating System Guaranteed to Last

***Designed to refurbish and restore heat exchangers,
chillers, evaporators, absorbers and many other
fluid flow components***

The Thortex System consists of:

Thortex Cerami-Tech EG, a high performance multi purpose repair compound specifically developed for rebuilding metal components damaged by erosion and corrosion in a fluid flow environment. **Thortex Cerami-Tech EG** creates a high build protective layer with a high level of abrasion and corrosion resistance combined with optimum physical and mechanical strength.

Thortex Cerami-Tech FG also offers outstanding abrasion and corrosion resistance and a smooth, low-friction finish.

The Thortex Refurbishment and Restoration System is suitable for use on a variety of damaged components including valves, tubesheets, waterboxes, chillers, evaporators, absorbers, heat exchangers, condenser linings, pump bodies, impellers, propellers, rudders, and guide vanes.

Don't Replace it - Refurbish it and get years of usable life out of your fluid flow components.

The Repair and Protection Group consists of:
Repair and Protection Technologies, Inc. (RPT) serving Pennsylvania, New Jersey, Delaware
RPT New York serving the state of New York
